Fitted Bed Wardrobes

Space-saving by design

Wardrobes either side of the bed, joined by bridge units overhead. One cohesive piece that turns the bed wall into your best storage.

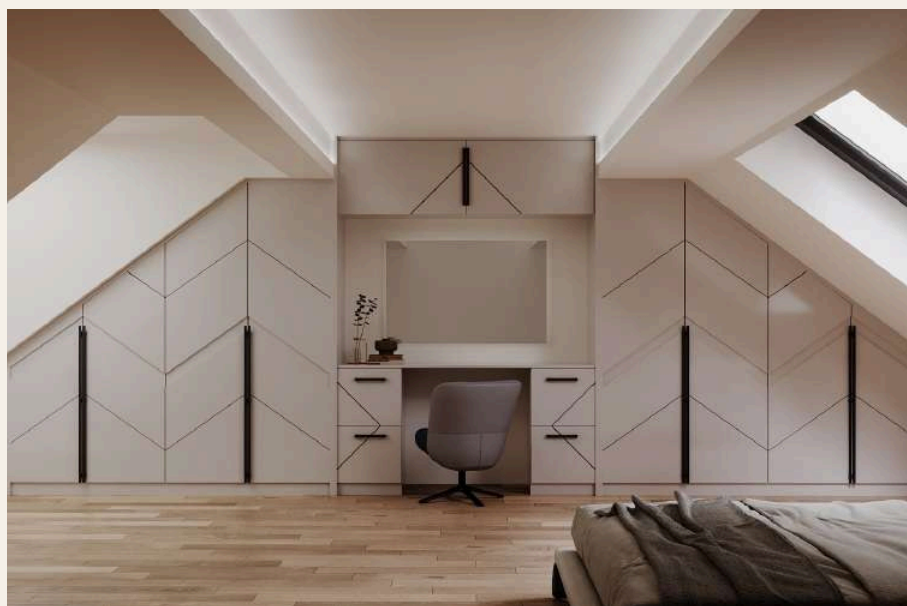

Bridge units — cupboards, shelves or open recesses above the bed

Bedside units — drawers or floating shelves built in

Integrated lighting — LED strips behind the headboard

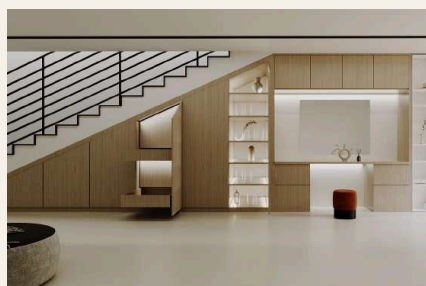

Matching bed — pair with a Zadaz upholstered bed [see the beds](#)

Loft Wardrobes

Doors cut to follow the slope of your roof, so every corner of the loft becomes storage — with room for a desk or dressing area.

Under the Stairs

Pull-outs, cupboards and display niches shaped to your staircase. The most overlooked space in the house, put to work.

Sliding Wardrobes

2- or 3-door systems with panelled, painted or mirrored fronts. Ideal where there is no room for doors to swing.

Walk-In Wardrobes

Open or glass-fronted, with lit rails, shoe shelves and an island ottoman.
